Take the Lucy Pledge- Boycott the Edmonton Valley Zoo

We the undersigned hereby take a pledge to boycott visiting the Edmonton Valley Zoo until such time that Lucy the Elephant be allowed a second opinion by independent elephant veterinarians. Lucy needs an impartial determination of her current health status and a second opinion by a team of experts as to whether or not she could be safely transported to one of 2 US sanctuaries. We cannot support a facility that has shown such callous disregard for this elephant"s well being. She has served the City of Edmonton and it's zoo faithfully and she finally deserves a chance for a better life in her twilight years. All efforts must be undertaken to afford her the chance to live longer and more comfortably. Zoo elephants die prematurely and suffer more than nearly any other species in captivity. Lucy's life expectancy could be extended if she had better living conditions and around the clock access to expert medical care.
